Practice B Graphs of Sine and Cosine Using  $f(x) = \sin x$  or  $g(x) = \cos x$  as a guide, graph each function. Identify the amplitude and period. 1.  $b(x) = 5\sin 5x + 2$ .  $k(x) = 3\cos 25x + \dots$  Using  $f(x) = \sin x$  or  $g(x) = \cos x$  as a guide, graph each function.

**LESSON Practice B 11-1 Graphs of Sine and Cosine**

11-1-Look for CasesMany problems can be partitioned into a few cases. The cases are classifications within the problem that are exclusive one to another but which taken together comprise all the possibilities in the problem. Divisions into cases are made where the characteristics of the problem are most critical.
